

BROCHURE

POUCH PACKING MACHINERIES

Pouch packaging machines are commonly used across various industries to efficiently package a wide range of dry products.

1. Food Products
2. Health & Wellness Products
3. Cosmetic & Personal Care Products
4. Household and Cleaning Products
5. Agricultural and Garden Products
6. Mini Metallic Products

PRODUCT INFORMATION

POUCH PACKING MACHINES

Full stainless steel or stoving varnish for different customer requests ,food grade and energy saving.
Intelligent control, it can do fully automatic packaging, more precise and fast.
Double vibration device, it's good for packing almost all kinds of powder.
can be installed cutting sensor, date coding, 3 sides sealing or back sealing bag type.
Easy to operate, filling weight can be set directly on display.

For various of products : kinds of powder and granules.

Can be used in various of packing Material : Plastic film, Laminated film, Aluminum foil, Filter paper, Non-woven fabrics and other compound materials which can be heat sealed.

CONSIDERATIONS FOR CHOOSING A POUCH PACKING MACHINE:

Product Type: The nature of the product (solid, liquid, powder) will determine the type of filler required.

Pouch Style: Whether you need flat pouches, stand-up pouches, resealable pouches, or spout pouches.

Speed Requirements: Depending on production volume, you may need a machine that offers high-speed packaging.

Material Compatibility: Ensure that the machine can handle the type of pouch material you intend to use (plastic, aluminum foil, paper, etc.).

Budget and Maintenance: Consider upfront costs, long-term maintenance, and operator training.

APPLICATIONS

01

Storage hopper

Put in material

02

Filling Control Panel

Set weight and filling speed
Automatic quantitative weighing

03

Packaging control panel

Set temperature and bag length, etc

05

Tightly sealing

Automation equipment
improve work efficiency

AUTOMATIC

POUCH PACKING MACHINES

UPTO
50 g
Pouch Packing

MODEL SPECIFICATION:

Brand :	Creature Industry
Model :	CI-P50
Product Type :	Pouch Packing Machine
Filling Speed :	10 -20 /Minute 800 – 1200 Pouch/Hr (Depending on Material)
Pouch Capacity :	Upto 1 g to 50 g
Phase :	Single Phase
Accuracy :	± 2 gm
Voltage :	220 V
Power Consumption :	2 kw
Automation Grade :	Automatic
Driven Type :	Electric
Sealing Type :	Center Seal / 3 Side Seal
Max roll width :	240 mm
Horizontal heater length :	135 mm
Vertical heater length :	180 mm
Dimension(L*W*H)	420L* 500W* 1450H MM
Packaging Material	Materials which can be heat sealed

POUCH PACKING MACHINES

UPTO
100 g
Pouch Packing

MODEL SPECIFICATION:

Brand :	Creature Industry
Model :	CI-P100
Product Type :	Pouch Packing Machine
Packaging Speed :	12 – 16 pouch/min 800 – 1200 Pouch/Hr (Depending on Material)
Pouch Capacity :	Upto 10 GM to 100 GM
Accuracy :	± 2 gm
Sealing Type :	Center
Automation Grade :	Automatic
Driven Type :	Electric
Voltage :	220
Power :	2 kWh
Sealing Type :	Center Seal / 3 Side Seal
Max roll width :	240 mm
Horizontal heater length :	135 mm
Vertical heater length :	180 mm
Dimension(L*W*H)	420L* 500W* 1450H MM
Packaging Material	Materials which can be heat sealed

MULTI-HEAD (10 HEAD) Weighing & Filling Machine

MODEL SPECIFICATION:

Filling Speed :	4000 Pouch/Hour (Depending on Materials Weight)
Material :	Stainless Steel/Mild Steel
Phase :	Three phase
Grade	202
Weight :	600 kg
Voltage :	440V
Power Consumption :	5 kw
Usage/Application :	Industrial
Brand :	Imported
Product Type :	Weighing, Filling & Packing Machine

Video outgoing-inspection :	Provided
After-sales Service	Online support
Core Components :	Hopper, feeder, Infeed conveyor, MultiHead Weigher, VFFS, Outfeed conveyor, CheckWeigher, Case Packer

TERMS AND CONDITION

- 1. Delivery time:** 10-15 days after your order with advance payment.
- 2. Payment terms:** 100% advance payment in case of bank financing.
- 3.** 25% advance in case of self-financing rest 75% to be paid Before Delivery of Machine
- 4. Packaging & forwarding:** will be charged extra as actual.
- 5.** In case of customer wants petty packing then it will cost as per the machine size.
- 6. Installation:** The installation and demo service will be provided. Buyer should pay engineer's round way ticket, food and room (all labor charges according to machine). Company will communicate the day and time slot of the scheduled installation and demo through a call from head office (Oil expeller and Patthar Chakki installation will not provide by company.)
- 7.** Company will provide only 1 visit for the installation, rest visit are for service. Buyer must arrange all necessary requirements like electricity wiring, electricity supply & raw material etc.
- 8.** The authorized service engineer will provide details demo that includes Usage of product. Explain all the functionality of the product. Preventive maintenance action to be taken.
- 9.** Product must use according to the instruction given by company authorized service engineer.
- 10.** Modification or alteration of any nature made in the electricity circuitry/or physical construction of the set that do not confirm to the recommended operating conditions of the machine will not consider any legal claim by the company
- 11.** Defects due to cause beyond control like lighter, abnormal voltage, acts of God or while in transit to the service center's or purchaser's residence will not consider any legal claim by the company.
- 12.** After billing If the buyer fails to operate the purchased machine after providing all the instruction given by the authorized service engineer will not consider any legal claim by the company.
- 13. Cancellation of order:** In case of order being cancelled the entire amount of advance will be forfeited. In case order is being cancelled due to company's reason then your advance payment will be adjustable but in case reason is from buyer's side then it is neither adjustable nor refundable.
- 14. Validity:** after booking of machine your advance payment valid for 30 days only.
- 15.** After purchase once your machine will be used by you it will neither refundable nor adjustable.
- 16.** Company does not work on second hand machinery.
- 17.** Once our authorized person will reach at your place for installation or for any service then it is customer responsibility to provide pickup & drop facility to the nearest transport area.
- 18.** After completing the required service or installation it is customer responsibility to free up the authorized person as soon as possible otherwise it will automatically charge 500 rupees per hour to be paid by customer.
- 19.** Company strictly states to the customer to behave very polite and respectfully to our authorized person i.e. service engineer.

Special note :- All machineries are less noiseable and pollution free.
